

SHOPLEEZ — Features & Modules

Basic Plan (Starts from 30,000 EGP)

The foundation package includes everything needed for a retail/wholesale business to operate smoothly.

Core Features

- **User Registration & Login:** via mobile/email with profile management.
- **Sign Up Options:** customers can register as **Individuals** or as **Businesses/Shops**.
- **Product Catalog:**
 - Detailed product pages with **flavors/variants**, **descriptions**, **nutrition facts**, and **tags** (e.g., *sugar-free*, *keto-friendly*).
 - **Two-Unit System:** sell products in two different units (e.g., *piece & box*, *bar & pack*). Each unit has its own price, and admins can enable one or both.
 - **Related Products** displayed for cross-selling.
 - **Favorites List** for saving items.
 - **Out-of-Stock Alerts** (bell icon) when products become unavailable (if stock tracking enabled).
- **Categories Structure:**
 - **Companies** with categories as sub-children.
 - **Sections** (e.g., Chocolate, Juices, Candy) with companies as parents.
- **Search:** by name, barcode, or keyword.
- **Shopping Cart & Checkout:**
 - Configurable quantity limits per product.

- Multiple saved addresses per customer.
 - Cash on Delivery (COD) supported.
- **Orders Management:** full list of previous orders + reorder option.
- **Notifications System:**
 - Admins can send notifications with **headline**, **description**, and **redirect destination** (specific product, category, or offer).
 - Set **expiry dates** for time-sensitive notifications.
- **User Preferences:** language (Arabic/English), currency, notification toggles.
- **Admin Settings:**
 - Enable/disable **stock tracking**.
 - Toggle **show/hide items** from catalog.
- **Clients Management:**
 - View customer profiles, past orders, and saved addresses.
 - Manage delivery staff records.
- **Dashboard Features** (included in Basic Plan):
 - **Order Management:** accept/deny, edit orders, replacement orders.
 - **Catalog Management:** create/manage products, units, sections, companies, keywords.
 - **User Management:** customers & delivery staff profiles.
 - **Notifications Management:** headline, description, redirect, expiry.
 - **Offers Management:** standard, company, or special offers.
 - **Settings:** minimum order, delivery fees (region/distance), free delivery conditions, dual pricing.

★ Decision Point: Tips & Ratings

- **Tips Support:** customers can add tips for delivery staff (admin can enable/disable).
- **Order Ratings:** customers rate their experience post-delivery.

🔄 Order Flow

1. Customer places an order.
 2. Admin receives and either **accepts or denies**.
 3. Accepted → moved to **Preparing** stage.
 4. Admin marks as **Prepared**.
 5. Assigned to a delivery driver (if delivery app is enabled).
 6. Order marked as **Delivered** or **Not Delivered**.
- **Manual Order Editing** available at any stage.
-

💎 Extra Modules (Priced Separately)

- **Support & Chatting** — 5,000 EGP
In-app chat + ticketing system.
- **Online Payment & Wallet** — 20,000 EGP
Paymob, Fawry integration + customer wallet.
- **Loyalty & Referral** — 10,000 EGP
Points system + cashback + referral links.
- **AI & Voice Assistant** — 25,000 EGP
Voice orders, search, and smart suggestions.
- **Advanced Offers & Promotions** — 15,000 EGP
Special offers, featured products, pop-ups, loyalty integration, referral, coupons.

- **Replacement Orders Module** — 5,000 EGP
